Dave,

Thanks for the message.

We at Passaic River rowing are hoping they can start the dredging in June, after the HS rowing season ends so that there are roughly 700 less athletes rowing on the river and a regatta planned for Mid may has been run.

Jeff

[Note: the article states that the estimated cost of the cleanup options for the lower 8 miles ranges from \$1.3 to \$3.4 million. It should have been billion. I left a message for Scott Fallon with the correction.]
